Case Study - FITNESS FOOTWEAR

We were contacted by **Fitness Footwear** to photograph a selection of health shoes. A new company with a web site in development, we took photos of 9 pairs of shoes initially, 4 different angles of each shoe were required, side shot, top shot, sole shot and then a detail shot. These photos were predominantly for the shop area of the web site but subsequently been used in magazines such as **Grazia**, **Slimming**, **YOU** magazine & **Health & Fitness** to name a few.
